

# OleaVision™ for Life Presence Detection

An Olea wireless vital sign sensor  
powered by Olea sensor analytic software  
**Intelligent Sensors That Save Lives**

## The Technology

- Occupancy detection with REAR SEAT REMINDER
- Detects life signs of occupants even when embedded in seat
- Not dependent upon motion, cameras or lighting conditions
- Compliant with features as proposed in Hot Cars Act of 2019

## Alert Functions

- Activates as soon as car engine is turned off
- Sends audio and visual alert to phone within 30 seconds of activation
- Interfaces with personal device (ios or Android)
- Vehicle audio alert when integrated into car's electrical system
