DEBUT AT THE G20 SUMMIT!**

BlindVue[®] Camera Monitoring System

PSVT Camera Monitoring System is a device specially designed for commercial vehicles. On the premise of not changing the original driving habits, the road conditions are monitored in real time through the high-resolution monitor.

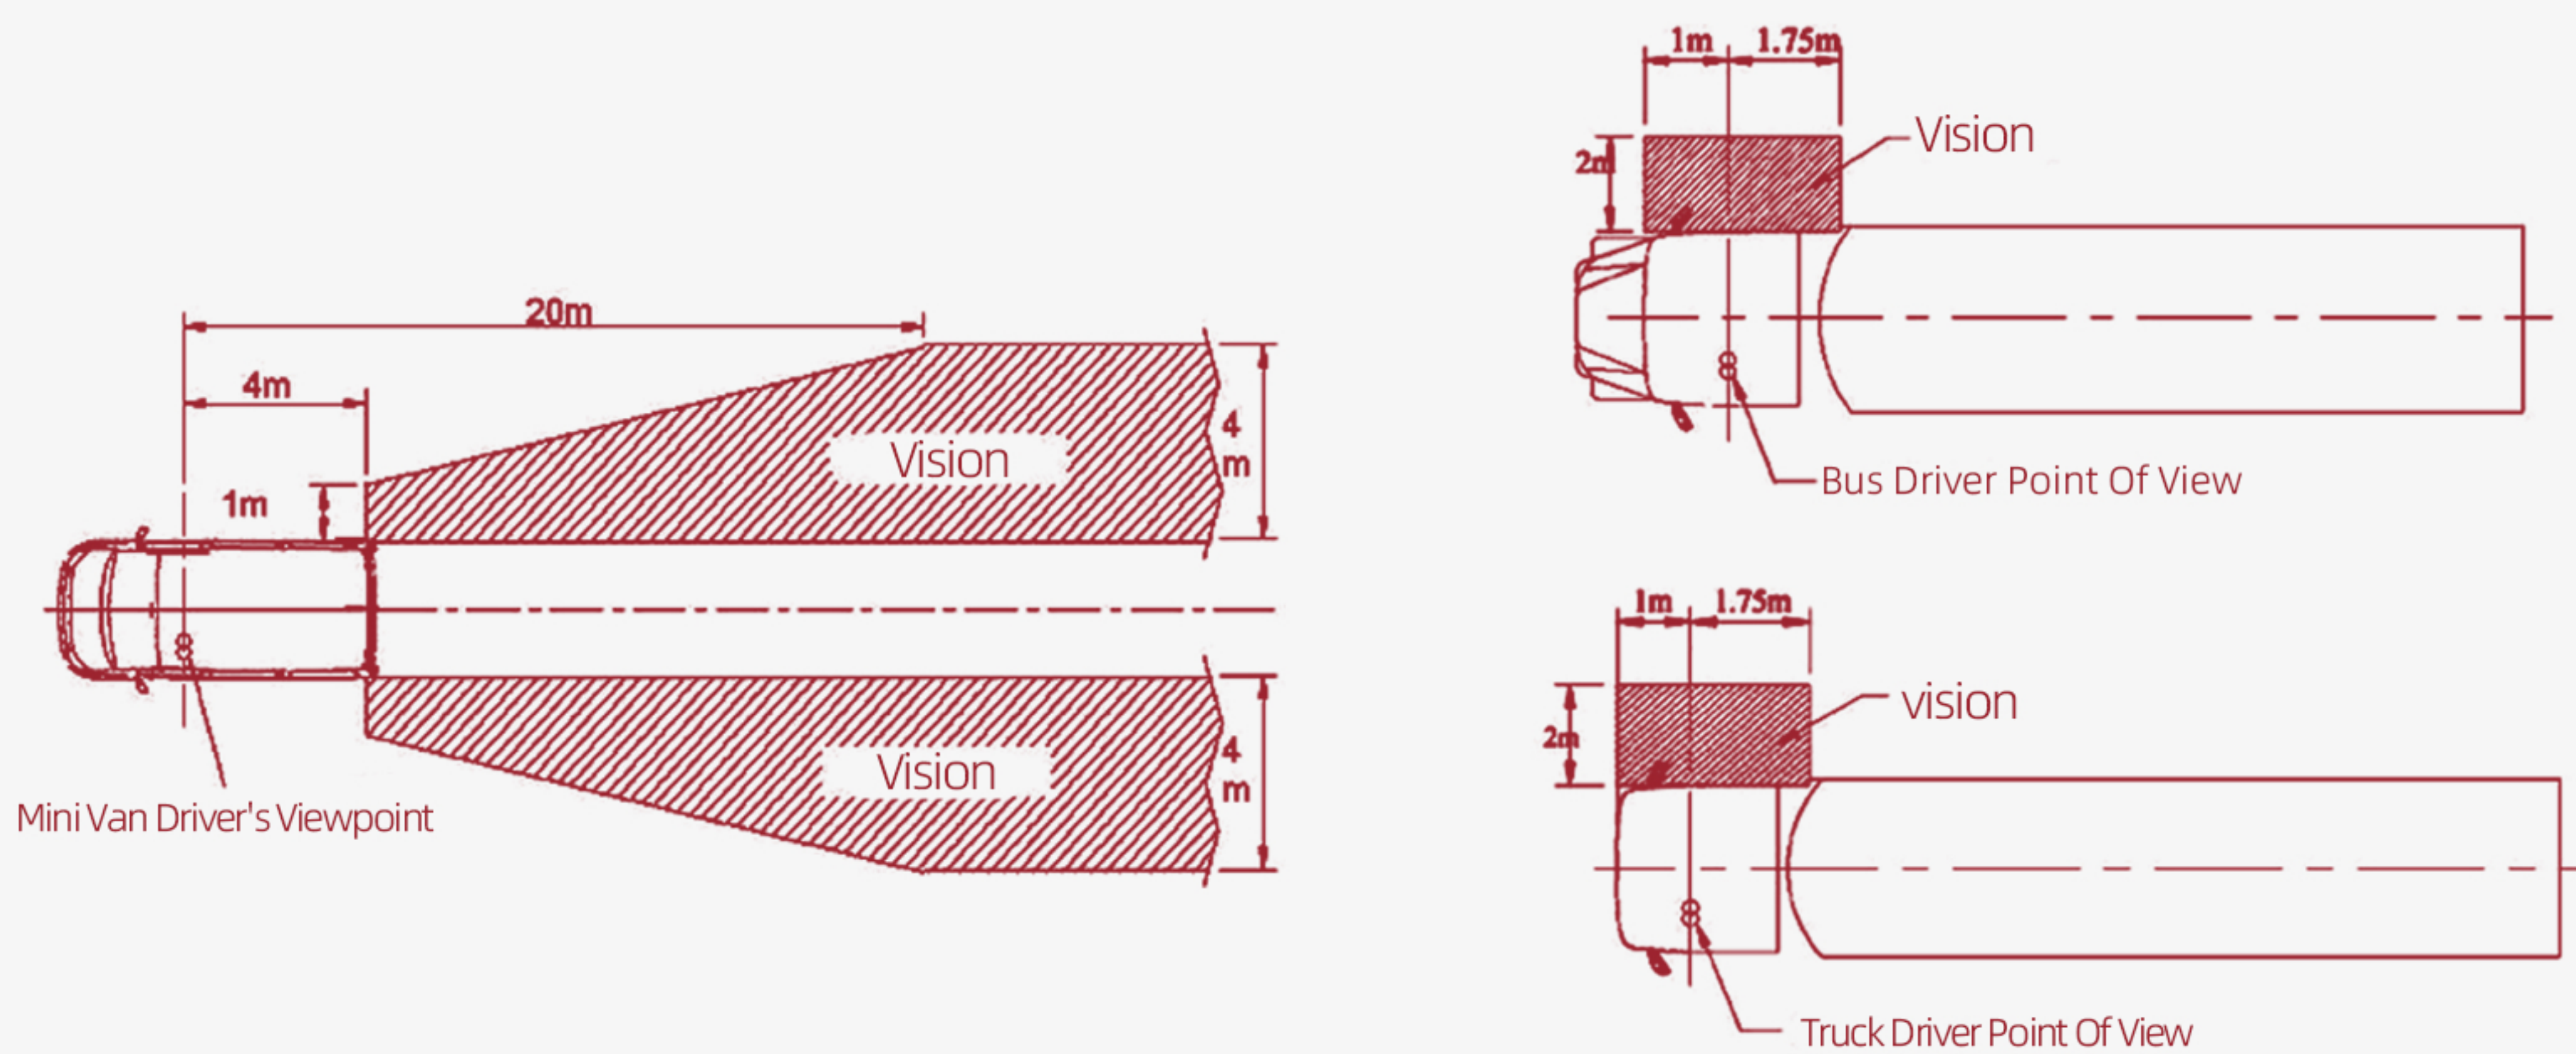

The driver can not only observe the conditions around the vehicle from the best perspective, but also create the most safe and expanded field of vision.

- **WIDER AND CLEARER FIELD OF VIEW**
- **MIRROR AUTOMATIC HEATING**
- **SUITABLE FOR HARSH ENVIRONMENTS**

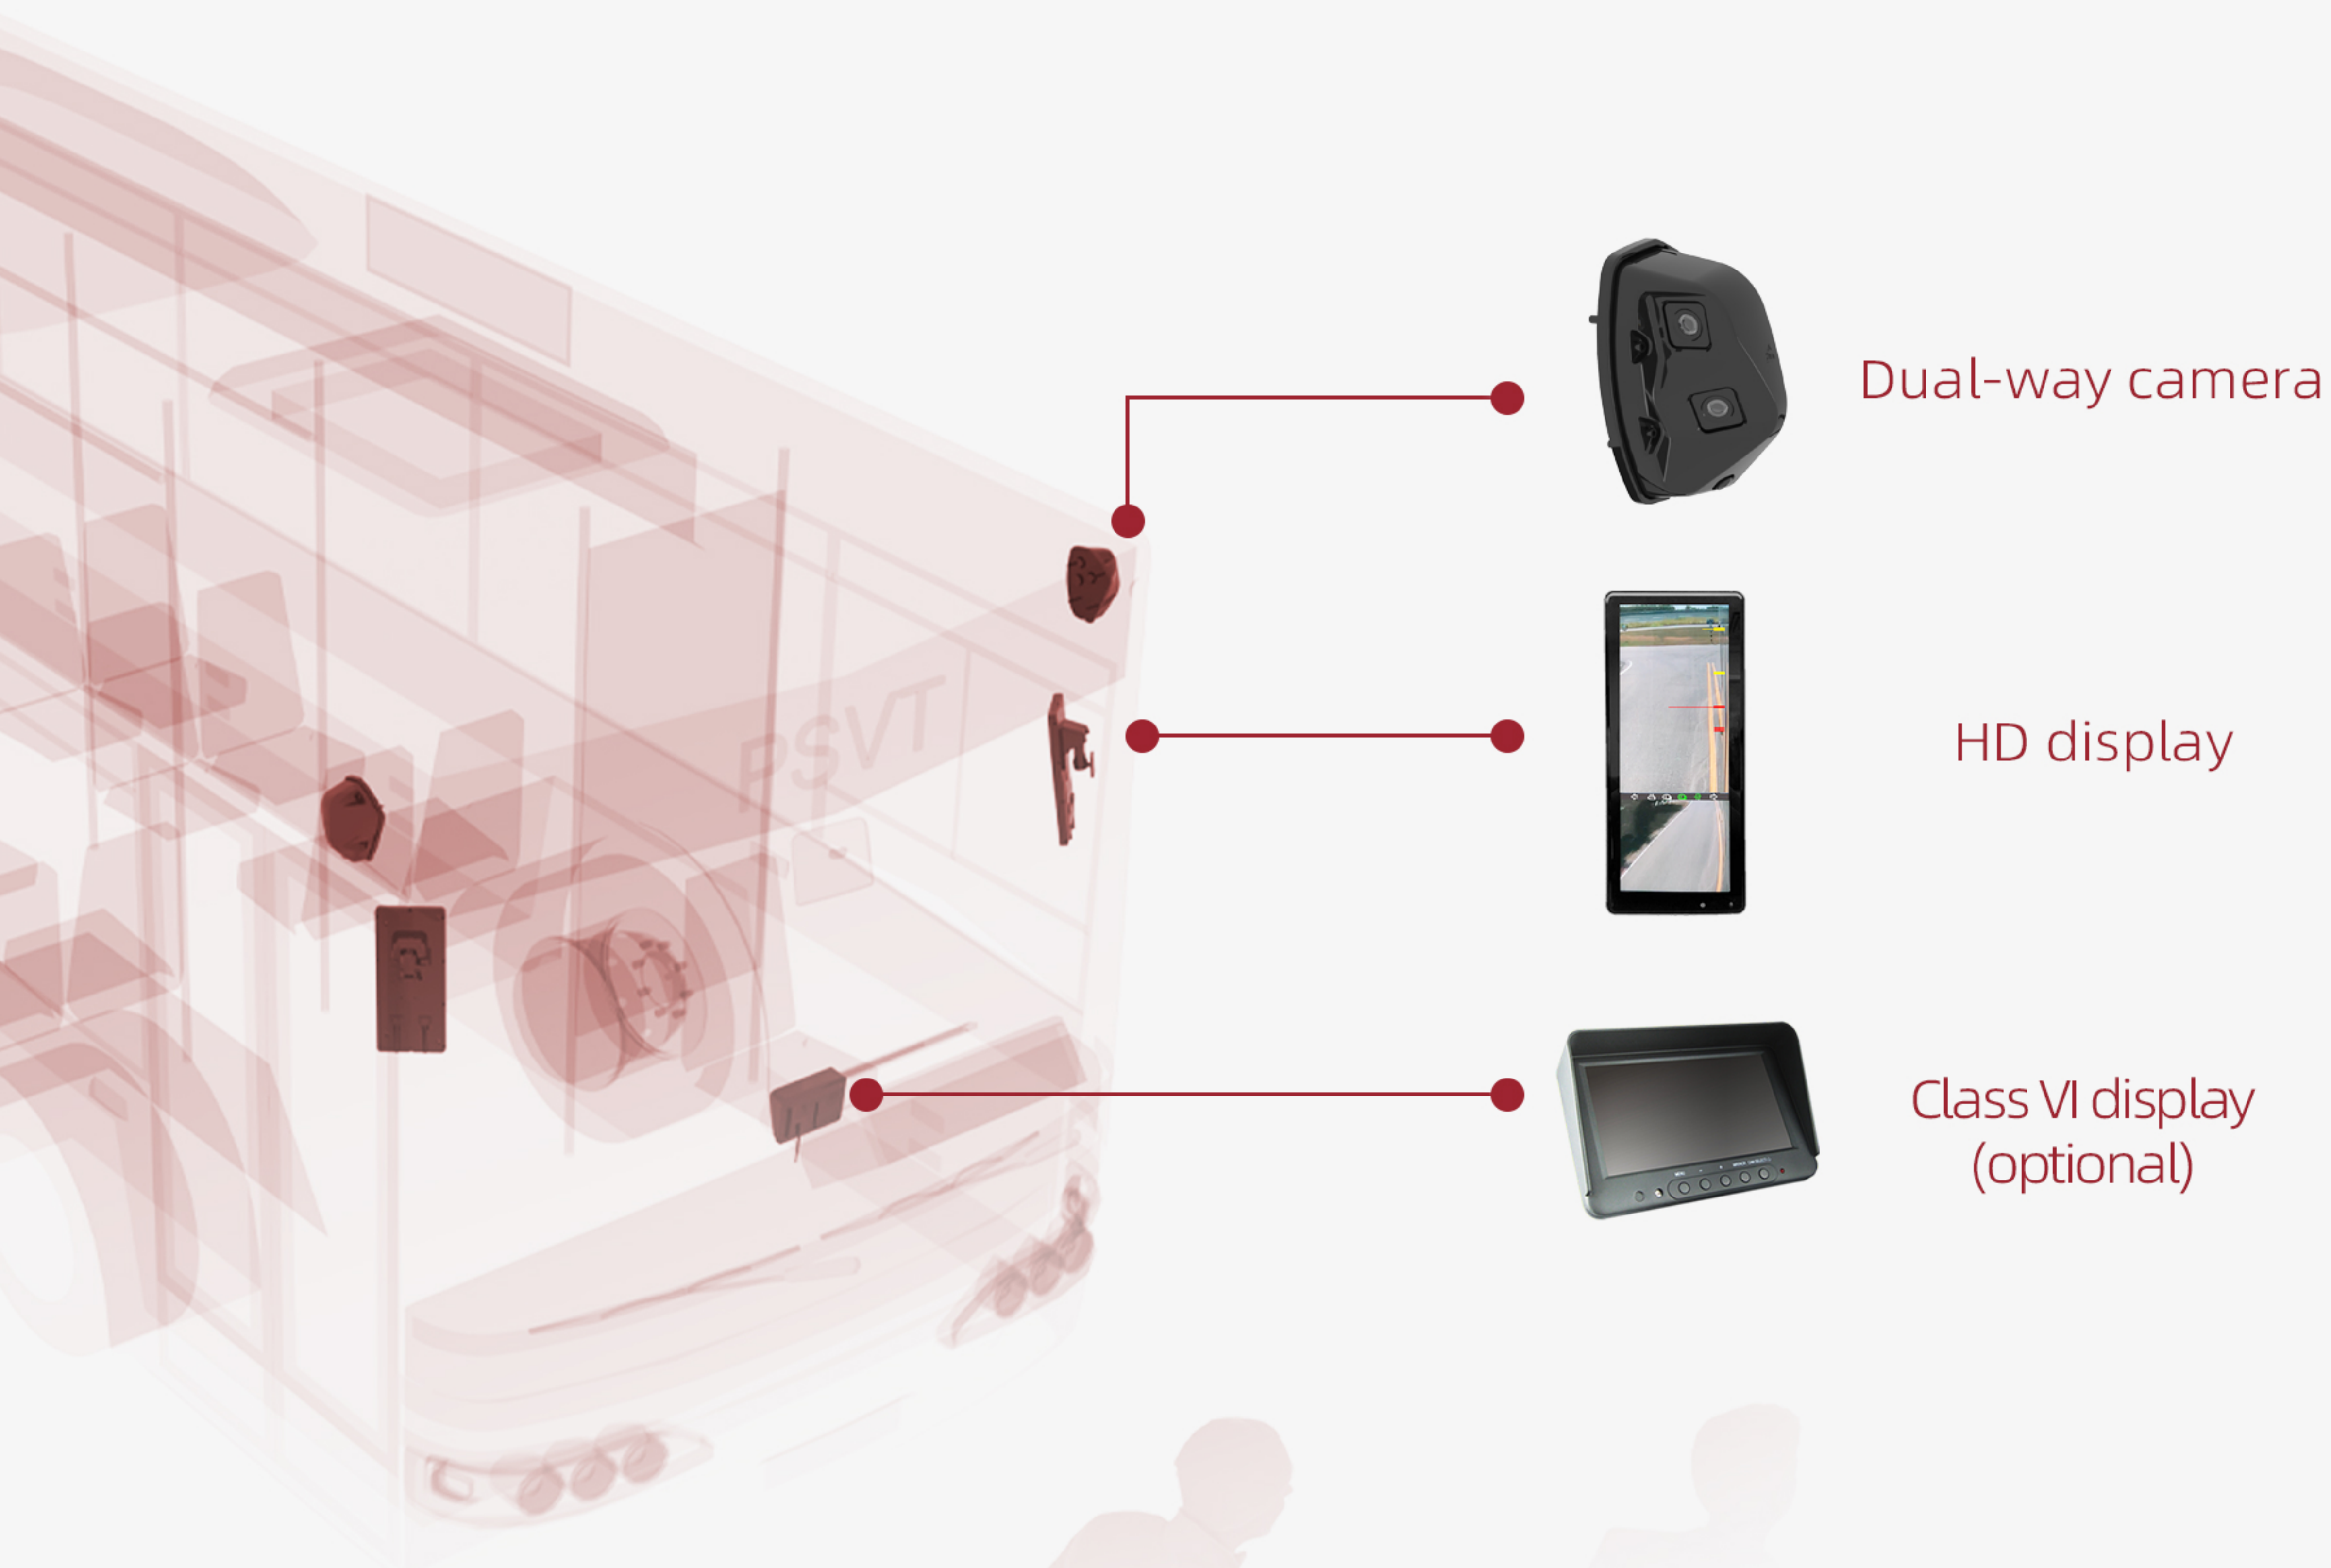

Equipped with Hon Hai Bus Model-T, unveiled at the G20 summit in bali provide connectionservices for world political and economic leaders.
